

Love INC of Medina County

Winter Newsletter 2021

From the Executive Director

The Covid-19 pandemic has had significant social effects on everyone. Recently highlighted is the negative social impact on a person's well-being, especially children, health workers, and the elderly. The negative social impact is heart wrenching. On the rise are reported cases of post-traumatic stress disorder, anxiety, depression, and the inability to handle negative emotions. Abusive relationships and social isolation have many living alone, devalued, and in constant fear.

At Love in the Name of Christ, our purpose has never been more clearly defined. We are to come together as a unified Body of Christ and provide for the emotional, spiritual, physical, and financial needs of those hurting and in need. I truly thank everyone that has given of their time, talents, and treasures to help us accomplish our purpose. Together we can overcome this negative social impact, one Christ-like relationship at a time.

With Love in the Name of Christ,
Christine Barnes

FAITH & FINANCE CLASSES

MAY/JUNE

Faith & Finances is a financial education program that empowers low-income people with practical money management skills, biblical stewardship principles, and supportive relationships. This class helps participants learn how to track income and expenses, save money, plan for emergencies, and pay off debt. At the same time, they receive support and encouragement from coaches who walk alongside them as they learn. Join us by becoming a coach to support participants!
